Re: CCX N 75 200 PE films

This is in reference to your submission dated 06/01/05 concerning the use of the above packaging material for use in a food plant.

In the interim, based on the available information no objection will be taken to the use of the above packaging material for packaging fresh and frozen meat, fish, produce and dehydrated food products, provided we do not receive any adverse reports on its physical and chemical suitability.

I trust the above is in keeping with your request.

Yours truly,

J.J. Donald
Technical Program Officer
Non-Food Chemicals and Container Integrity Programs
Food Safety Directorate
Canadian Food Inspection Agency
